

Student Voice 2018: Elementary School (K-5)

Last year, we ran our inaugural student essay contest. We were thrilled by the responses from 100 students from across the state. Thanks to you, we learned more about how middle and high schoolers persevere through personal challenges, in and out of school.

In 2018, we want to keep learning from and listening to Ohio's students, including our younger ones. So, we're trying something different.

Even when solving problems in our daily life, we rely on our STEM skills like collaboration, critical thinking, and perseverance. These go beyond science, technology, engineering, and math. So, we want to hear how students from kindergarten to fifth grade put these skills into action.

Tell us about a problem in your life, community, or world.

How did you solve it? Or, how will you solve it?

Submission Information

1. Challenge your students to answer the prompt above in a 90 second video. Be sure to include your name, grade, and school!
2. Connect your students to our OSLN Flipgrid at <https://flipgrid.com/fcd93e>.
 - a. Record a response on a computer or smart phone with audio and video
3. Send us an email with the names of your students so we can contact you if we'd like to feature your student's answer on an upcoming podcast.

All submissions are due by 11:59 PM on Sunday, March 18th

Our favorite submissions from each grade level will be featured on OSLN.org for the whole state to see!

Looking forward to hearing from you – reach out with any questions!
